THE DEFINING PHILOSOPHY REFERENCE — NOW EVEN STRONGER AND MORE RELEVANT

e Since 1967, the *Encyclopedia of Philosophy*, described by Booklist as "the best and most comprehensive English-language reference source for philosophy," has been the cornerstone of the philosophy reference shelf. Lauded for its clear and accessible presentation of wide-ranging philosophical subjects, the *Encyclopedia* has earned its place as a first-stop resource for general readers, students and educators.

Compiled under the close guidance of a 22-member board of scholars headed by Donald Borchert (Ohio University), this new and updated edition from Macmillan Reference USA™ thoughtfully incorporates and enhances the core scholarship of the enduring original set and its critically acclaimed 1996 *Supplement* while adding hundreds of new articles. The result is a must-have, multi-volume set providing a balanced historical perspective that grants readers access to philosophical classics as well as the breadth of philosophical discussion and research from the last four decades.

REFRESHINGLY APPROACHABLE AND ROBUST

Attractively collecting material from hundreds of highly distinguished contributors representing the world's top universities and institutions, the *Encyclopedia of Philosophy, Second Edition* maintains continuity of scholarship throughout its comprehensive coverage of African, Islamic, Jewish, Russian, Chinese, and Buddhist philosophies; bioethics; art and aesthetics; epistemology; metaphysics; peace and war; social and political philosophy; the Holocaust; feminist thought; and much more. Both researchers and general readers will appreciate its:

- Thought-provoking exposure to the most recent philosophical concepts and trends
- Authoritative entries written in an accessible style by experts from many nations
- Global perspective and new coverage of African, Asian, Latin American, and Middle Eastern philosophical thought
- Extensive, heavily cross-referenced index enabling easy access to desired information
- Entry-specific bibliographies (some annotated) noting classic sources as well as essential newer materials for further study
